e7ents

CLIENT GUIDE

How e7ents works

From choosing a package to the album after the party, in nine steps.

01 Choose your package

02 Pick a template + colours

03 Make your account

04 The Studio

05 Pay + your link by email

06 Send invites + track replies

07 Before the party

08 On the day

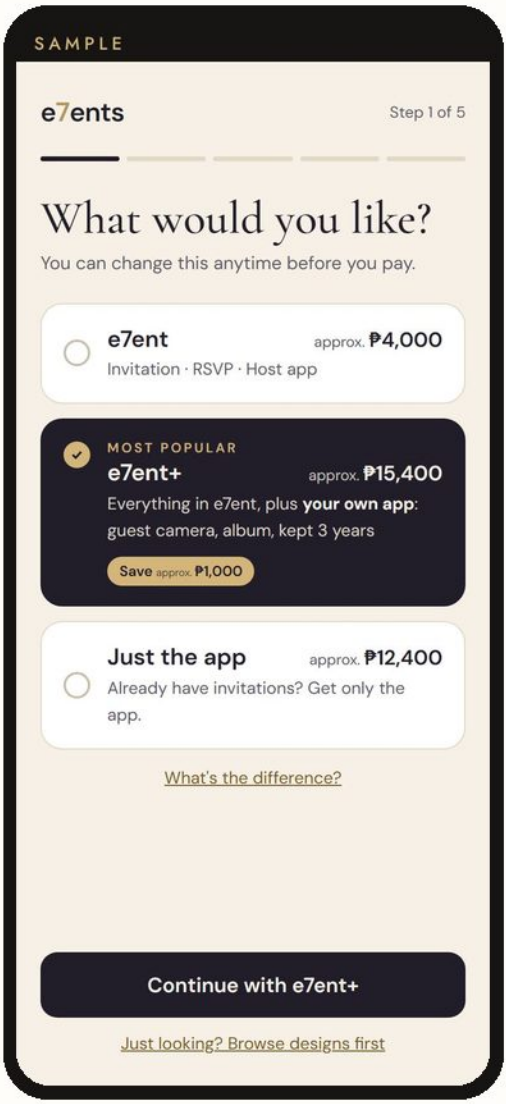

09 After the party

Every picture is a sample, labelled Sample. Most show Miles's 7th birthday.

STEP 01

Choose your package

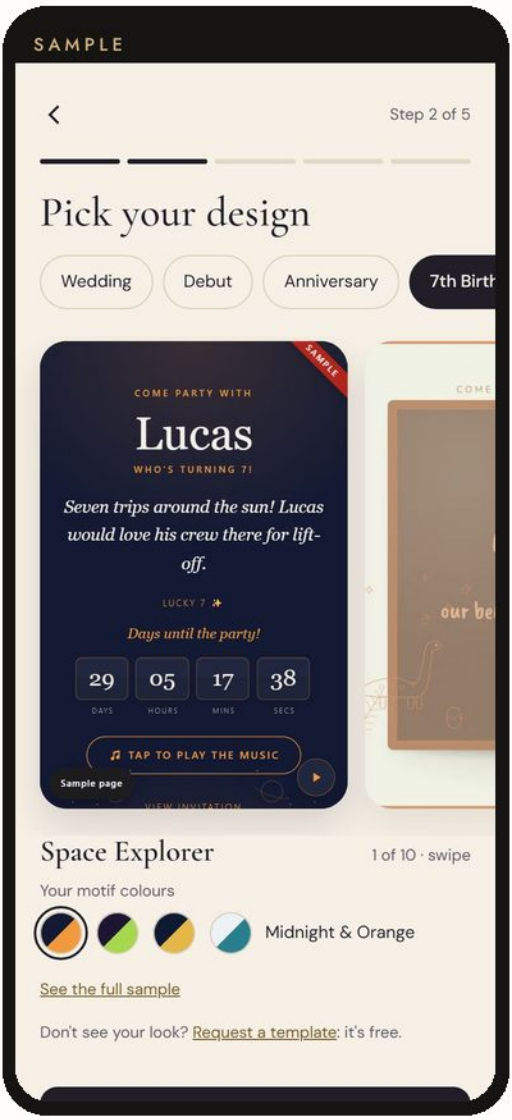

- e7ent: Invitation · RSVP · Guest list app.
- e7ent+: Everything in e7ent, plus the guest camera, live album, wishes and slideshow, kept 1 month, extend anytime.
- Every package comes with every template, colour and opening.

STEP 02

Pick a template and its colours

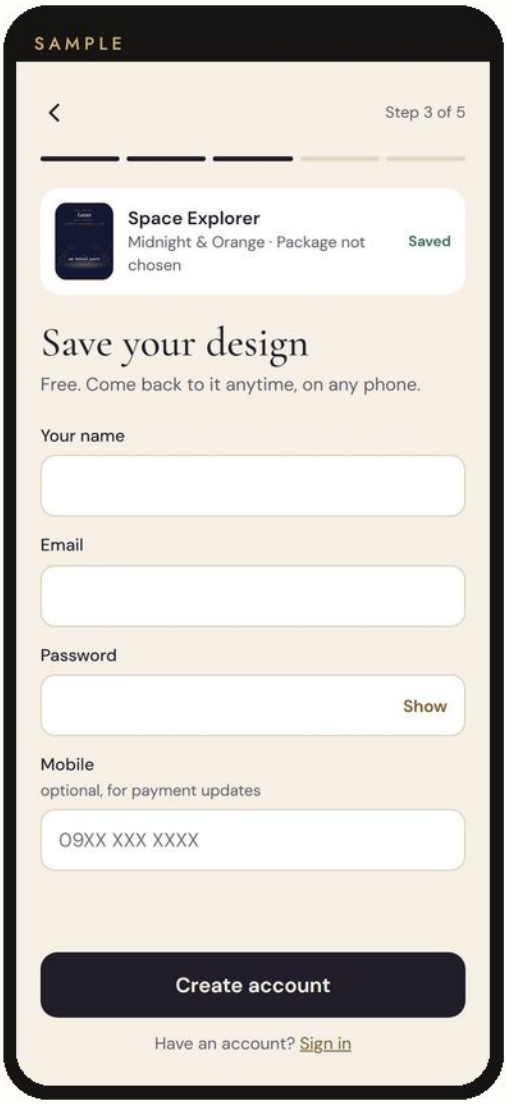

- Open Design and choose your occasion.
- Tap a template to see it full size, then try its colours.
- Tap Use this design. You can change anything later in the Studio.

STEP 03

Make your account

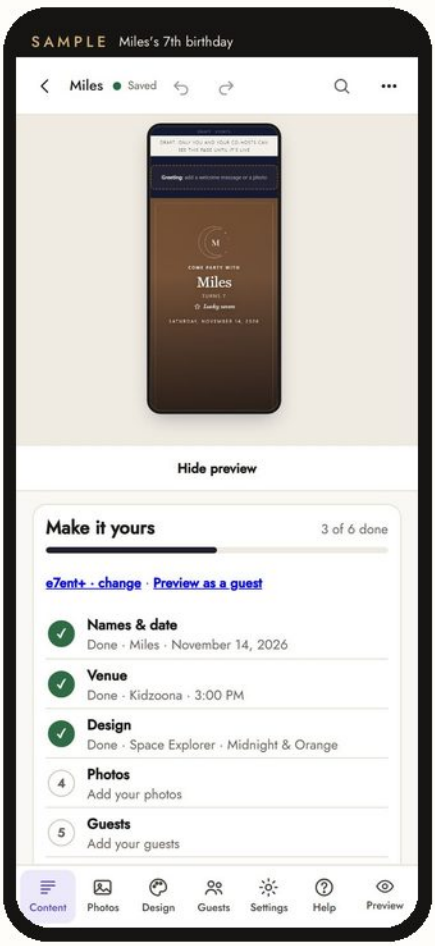

- Type your name, email and a password. Your mobile is optional.
- Your design is saved in your account, so you can come back on any phone.
- Forgot your password? Tap Forgot password? on the sign-in page.

STEP 04

The Studio: Content, Photos, Design, Guests, Preview

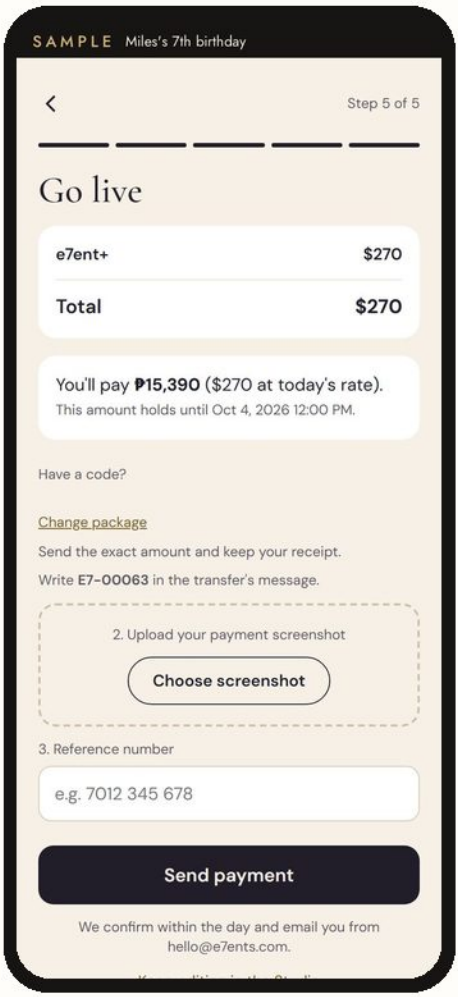

- Content: names, date, venue and the words of every part of the page.
- Photos: add your photos and choose the main one. Design: template, colours, fonts, music and opening.
- Guests: your guest list and their replies.
- Preview shows the page the way guests see it. Everything saves by itself.

STEP 05

Pay, and get your link by email

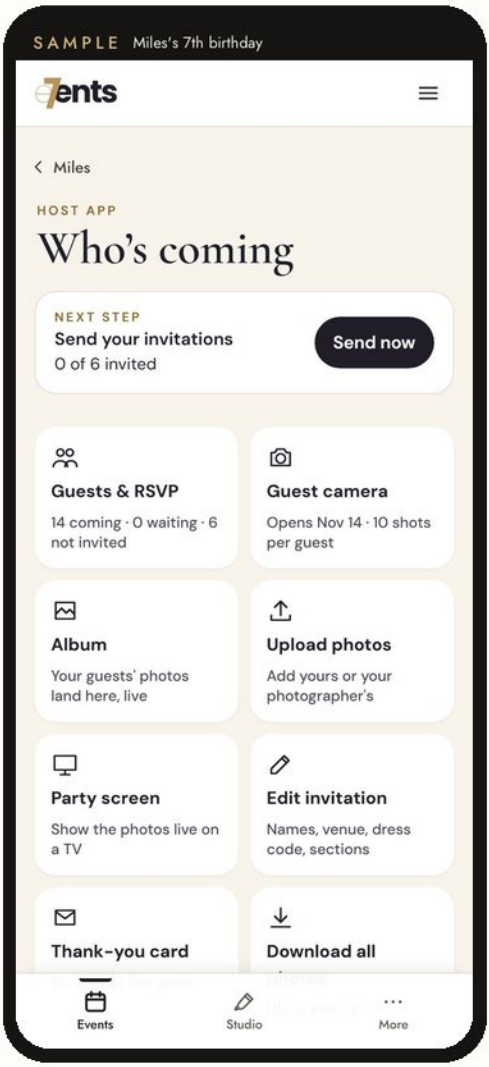

- Open Pay to see your order and the amount due.
- The amount is held for 3 days, so it won't change while you pay.
- Send your payment, then add a photo of the receipt.
- Once we confirm it, your page goes live and your links arrive by email.

STEP 06

Send your invites and track replies

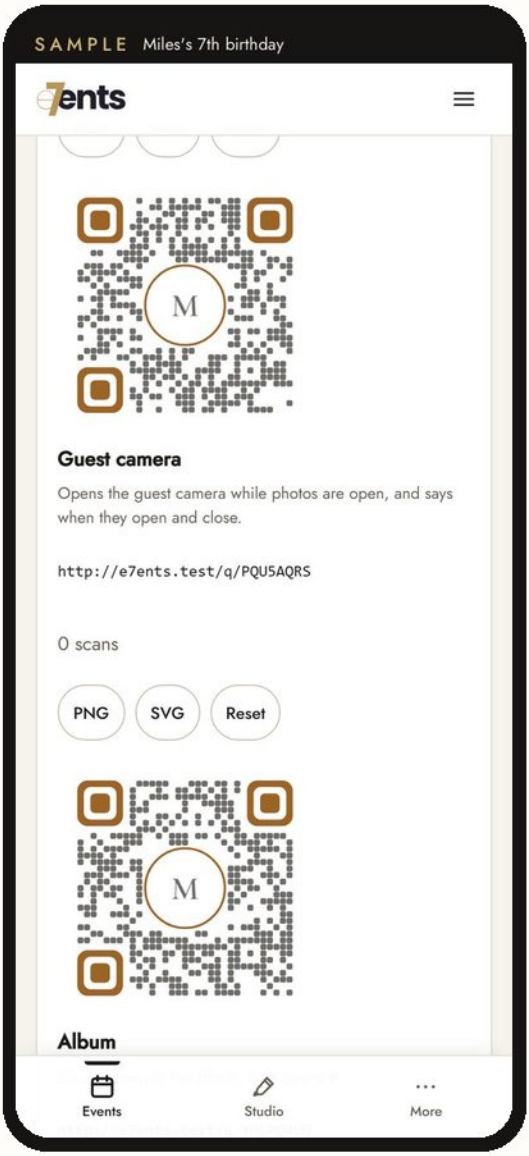

- Add your guests in Guests, one by one or from a list.
- Each guest has a personal link: send it by Messenger, Viber, text or email.
- Replies come into one list, and your app tells you as they arrive.

STEP 07

Before the party

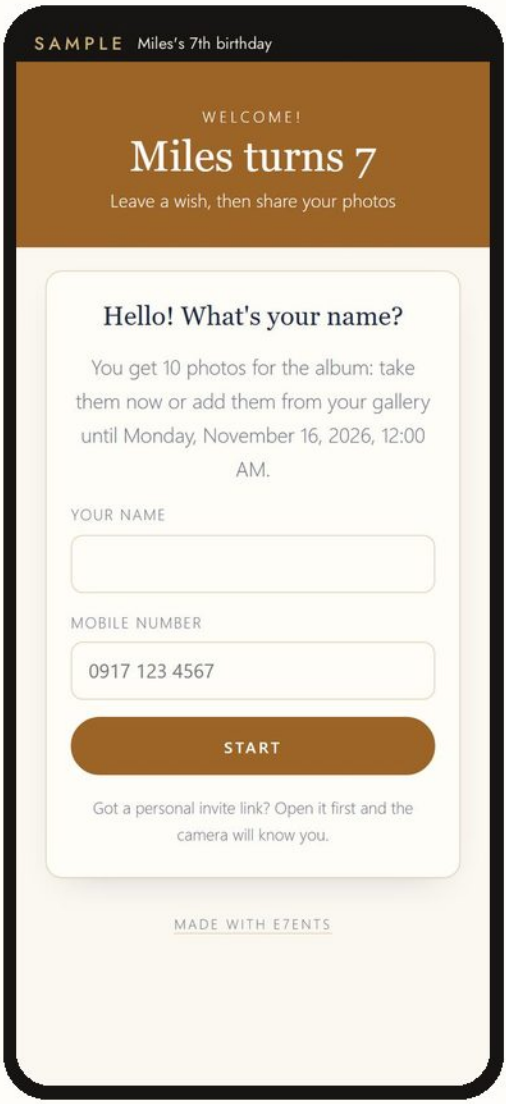

- Print the guest camera QR, so guests can open the camera at the party.
- Print table cards from Seating.
- Choose how many shots each guest gets: 10 each with e7ent+, more if you need them.

STEP 08

On the day

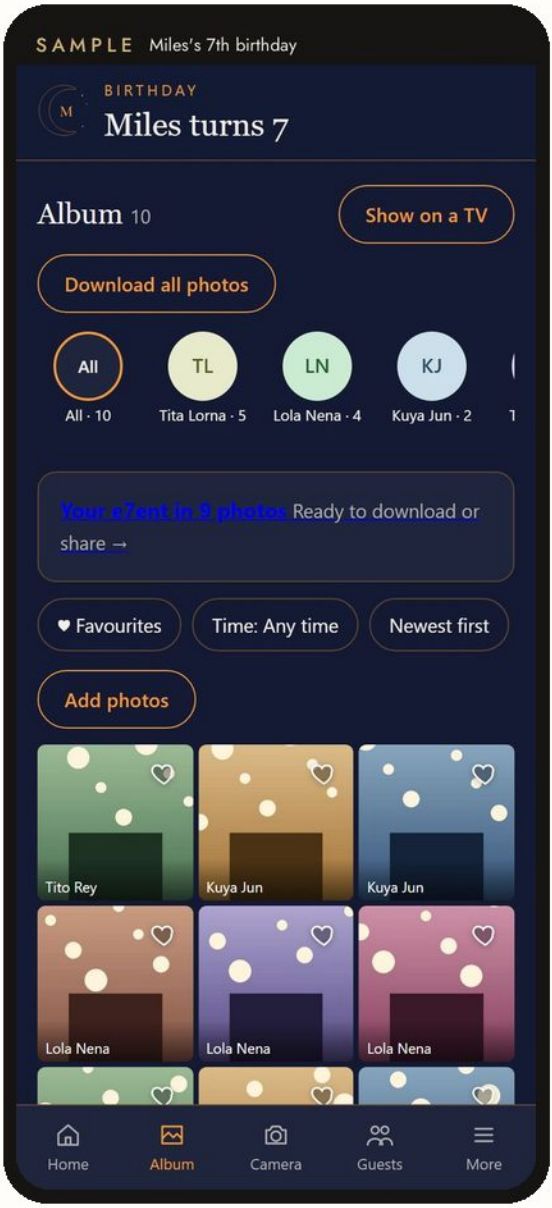

- Guests scan the QR, type their name and start shooting. No app to install.
- They can also upload photos from their phone and leave a wish.
- Put the slideshow on the TV: open e7ents.com/tv and type the code from your app.

STEP 09

After the party

- The album opens the next morning. Browse it by guest or by time.
- Read the wishes and play the voice messages.
- Download everything in HD, or just one guest's photos.

QUESTIONS

Good to know

Can I change my page after I pay?

Yes. The Studio stays open and changes show at once, until the invitation locks the day before the event.

Do my guests need an app?

No. The invitation and the camera open in the phone's browser.

What does the Sample label mean?

Every picture is a sample, never a real client's page. Most show a sample event, Miles's 7th birthday.

How long do we keep the album?

With e7ent+, your photos are kept 1 month after the day. Extend anytime from your app: +3 months, +1 year or +3 years. When it ends you still have 30 days to download everything.

I need help.
